INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders
Phihong Technology Co., Ltd.

Introduction

We have reviewed the accompanying consolidated balance sheets of Phihong Technology Co., Ltd. and its subsidiaries (collectively, the "Group") as of September 30, 2024 and 2023, the related consolidated statements of comprehensive income for the three months ended September 30, 2024 and 2023 and for the nine months ended September 30, 2024 and 2023, the consolidated statements of changes in equity and cash flows for the nine months then ended, and the related notes to the consolidated financial statements, including material accounting policy information (collectively referred to as the "consolidated financial statements"). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As disclosed in Note 12 to the consolidated financial statements, the carrying amount of the Group's investments accounted for using the equity method of NT\$74,584 thousand and NT\$99,434 thousand as of September 30, 2024 and 2023, respectively, and the comprehensive loss from the investments of NT\$5,936 thousand and NT\$5,047 thousand for the three months ended September 30, 2024 and 2023, respectively, and NT\$342 thousand and NT\$12,880 thousand for the nine months ended September 30, 2024 and 2023, respectively, were based on these investees' unreviewed financial statements.

Qualified Conclusion

Based on our reviews and the report of the other auditors (refer to the Other Matter section), except for adjustments if any, as might have been determined to be necessary had the financial statements of equity-method investees as described in the preceding paragraph been reviewed, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of September 30, 2024 and 2023, its consolidated financial performance for the three months ended September 30, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the nine months ended September 30, 2024 and 2023 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34 “Interim Financial Reporting” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Other Matter

We did not review the financial statements of some subsidiaries included in the consolidated financial statements of the Group, but such financial statements were reviewed by other auditors. Our conclusion, insofar as it relates to the amounts included for subsidiaries, is based solely on the reports of other auditors. As of September 30, 2024 and 2023, the total assets of these subsidiaries were NT\$4,138,367 thousand and NT\$4,291,682 thousand, representing 26.80% and 25.60%, respectively, of the consolidated total assets, and for the nine months ended September 30, 2024 and 2023, the total amount of operating revenue of these subsidiaries were NT\$3,171,567 thousand and NT\$3,172,451 thousand, representing 40.12% and 33.69%, respectively, of the consolidated operating revenue.

The engagement partners on the reviews resulting in this independent auditors’ review report are Chih-Yi Chang and Kuo-Tyan Hong.

PHIHONG TECHNOLOGY CO., LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2024 AND 2023 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL INFORMATION

Phihong Technology Co., Ltd. (“Phihong” or “the Company”), which was formerly known as Phihong Enterprise Co., Ltd. was incorporated on December 12, 1972 under the laws of the Republic of China (ROC). Under a resolution approved in the stockholders’ meeting in June 2003, Phihong changed its name to Phihong Technology Co., Ltd. Phihong primarily manufactures and sells AC/DC power adapters, charger bases, power supply modules, UPS (uninterruptible power supply) for computers, electric vehicle charging station, ballasts, etc.

In February 2000, Phihong was authorized to trade its stocks on the Taipei Exchange (TPEX) in Taiwan. In September 2001, Phihong’s stocks ceased to be traded on the TPEX, and Phihong later obtained the authorization to list its stocks on the Taiwan Stock Exchange.

The consolidated financial statements of the Company and its subsidiaries (collectively, the “Group”) are presented in Phihong’s functional currency, New Taiwan dollars.

2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Company’s board of directors on November 6, 2024.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

- a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRS Accounting Standards”) endorsed and issued into effect by the Financial Supervisory Commission (FSC)

The initial application of the IFRS Accounting Standards endorsed and issued into effect by the FSC did not have a material impact on the Group’s accounting policies.

- b. The IFRS Accounting Standards endorsed by the FSC for application starting from 2025

<u>New, Amended and Revised Standards and Interpretations</u>	<u>Effective Date Announced by IASB</u>
Amendments to IAS 21 “Lack of Exchangeability”	January 1, 2025 (Note)

Note: An entity shall apply those amendments for annual reporting periods beginning on or after January 1, 2025. Upon initial application of the amendments to IAS 21, the Group shall not restate the comparative information and shall recognize any effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or, if applicable, to the cumulative amount of translation differences in equity as well as affected assets or liabilities.

- c. The IFRS Accounting Standards in issue but not yet endorsed and issued into effect by the FSC

<u>New, Amended and Revised Standards and Interpretations</u>	<u>Effective Date Announced by IASB (Note)</u>
Annual Improvements to IFRS Accounting Standards - Volume 11	January 1, 2026
Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments”	January 1, 2026
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”	To be determined by IASB
IFRS 17 “Insurance Contracts”	January 1, 2023
Amendments to IFRS 17	January 1, 2023
Amendments to IFRS 17 “Initial Application of IFRS 17 and IFRS 9 - Comparative Information”	January 1, 2023
IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027
IFRS 19 “Subsidiaries without Public Accountability: Disclosures”	January 1, 2027

Note: Unless stated otherwise, the above IFRS Accounting Standards are effective for annual reporting periods beginning on or after their respective effective dates.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing other impacts of the above amended standards and interpretations on the Group’s financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION

- a. Statement of compliance

These interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 “Interim Financial Reporting” as endorsed and issued into effect by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in a complete set of annual financial statements.

- b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for an asset or liability.

c. Basis of consolidation

The consolidated financial statements incorporate the financial statements of Phihong and the entities controlled by Phihong.

Income and expenses of subsidiaries acquired or disposed of during the period are included in the consolidated statement of profit or loss and other comprehensive income from the effective dates of acquisitions up to the effective dates of disposals, as appropriate.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company.

All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the interests of the Group and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

See Note 11, Table 7 and Table 8 to the consolidated financial statements for detailed information on subsidiaries (including percentages of ownership and main businesses).

d. Other material accounting policies

Except for the following, please refer to the consolidated financial statements for the year ended December 31, 2023.

1) Retirement benefit

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

2) Other long-term employee benefits

Other long-term employee benefits are accounted for in the same way as the accounting required for defined benefit plans except that remeasurement is recognized in profit or loss.

3) Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

5. MATERIAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments, estimations, and assumptions on the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

When developing material accounting estimates, the Group considers the possible impact on the cash flow projection, growth rates, discount rates, profitabilities and other relevant material estimates. The estimates and underlying assumptions are reviewed on an ongoing basis.

6. CASH AND CASH EQUIVALENTS

	September 30, 2024	December 31, 2023	September 30, 2023
Cash on hand	\$ 3,525	\$ 2,436	\$ 2,903
Checking accounts and demand deposits	4,644,693	5,529,245	6,064,193

	<u>\$ 5,294,271</u>	<u>\$ 5,851,805</u>	<u>\$ 6,067,096</u>

The market rate intervals of cash in bank and time deposits at the end of the reporting period were as follows:

	September 30, 2024	December 31, 2023	September 30, 2023
Demand deposits and time deposits	0.001%-5.300%	0.001%-5.400%	0.001%-5.25%

7. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

	September 30, 2024	December 31, 2023	September 30, 2023

Domestic non-publicly trade equity investments	<u>\$ 136,344</u>	<u>\$ 122,608</u>	<u>\$ 120,489</u>

These investments in equity instruments are held for medium-to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes.

8. FINANCIAL ASSETS AT AMORTIZED COST

a. Notes receivable

The Group has no overdue notes receivables as of September 30, 2024.

b. Trade receivable

1) Trade receivables at amortized cost

The Group evaluates the average credit period of sales of goods based on the experience of trade receivable collection from the non-related parties in the past five years. No interest is charged on trade receivables. The Group adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management specialists annually.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. The expected credit losses on trade receivables are estimated using a provision matrix prepared by reference to the past default experience of the customer and the customer's current financial position, and other related information. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of trade receivables based on the Group's provision matrix.

September 30, 2024

	Not Past Due	Less than 60 Days	61 to 90 Days	91 to 120 Days	Over 120 Days	Total

Foreign exchange gains and losses	<u>847</u>	<u>879</u>
Balance, end of period	<u>\$ 25,749</u>	<u>\$ 26,112</u>

2) Trade receivables at FVTOCI

For trade receivables from major customers, the Group will decide whether to sell these trade receivables to banks without recourse based on its level of working capital. These trade receivables are classified as at FVTOCI because they are held within a business model whose objective is achieved by both the collecting of contractual cash flows and the selling of financial assets.

The following table details the loss allowance of trade receivables at FVTOCI based on the Group's provision matrix:

PHC leased its self-owned factory located in Dongguan City to unrelated parties in 2024 and 2023, respectively. The lease term of this investment property is 12-15 years. When the lessee exercises the renewal option, it is agreed to adjust the rent according to the market rent. The lessee does not have the preferential purchase right of the investment property at the end of the lease term. Since the factory is located in China, alternative reliable measurements of fair value are not available; therefore, the Company determined the fair value of the investment property.

Fully paid ordinary shares, which have a par value of NT\$10, carry one vote per share and carry a right to dividends.

Considering the long-term cooperation with strategic investors, improvement in financial structure and enhancement of operational efficiency, the Company held the special meeting of shareholders for the private placement of its ordinary shares on December 16, 2021. In the meeting, the shareholders of the Company resolved the proposal and authorized the board of directors to carry out the non-public offering twice, of which the shares to be issued should not exceed 37,520 thousand shares in total, within one year from the resolution date of the special meeting of shareholders.

On December 22, 2021, the board of directors resolved the specific subscriber for the offering of 37,520 thousand shares and the date, December 24, 2021, as the subscription base date. The share price of the private placement is based on the higher price calculated using two pricing models, (a) one of the simple arithmetical average closing price of the ordinary shares of the Company on any of the 1, 3 or 5 trading day prior to the pricing date, after deducting the value of bonus shares issued as stock dividends and cash dividends, and adding back the value of the shares canceled in connection with capital reduction, (b) another simple arithmetical average closing price of the ordinary shares of the Company for 30 trading days prior to the pricing date, after deducting the value of bonus shares issued as stock dividends and cash dividends, and adding back the value of shares canceled in connection with capital reduction. Thus, the reference price for the private placement is \$44.73 per share. Then, the subscription price is determined as \$40.26 per share, 90 percent of the reference price. The private placement has been completed on December 24, 2021, and legally registered on March 23, 2022.

In accordance with Article 43-8 of the Securities and Exchange Act, the above ordinary shares of the private placement can be publicly traded after 3 years from the acquisition date and applying for the public offering. Except for the prohibition an public trade, those who shares have the same rights and obligations as those who own the outstanding shares.

To enhance working capital, on July 31, 2023, the board of directors held a meeting and resolved to issue 56 million shares, each with a par value of NT\$10, at NT\$49.8 per share. The above transaction was approved by the authorities, and the subscription base date was determined to be October 27, 2023. On October 26, 2023, the full amount was collected. Moreover, the capital change registration was completed on November 24, 2023.

b. Capital surplus

	September 30, 2024	December 31, 2023	September 30, 2023

	<u>\$ 4,579,383</u>	<u>\$ 4,579,383</u>	<u>\$ 2,355,833</u>

The capital surplus arising from shares issued in excess of par (including share premium from issuance of common shares, conversion of bonds and treasury share transactions) and donations may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Company's capital surplus and once a year).

c. Retained earnings and dividend policy

Under the dividend policy as set forth in the amended Articles, where the Company made profit in a fiscal year, the profit shall be first utilized for paying taxes, offsetting losses of previous years, setting aside as legal reserve of 10% of the remaining profit, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Company's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. For the policies on the distribution of employees' compensation and remuneration of directors after the amendment, refer to "Employees' compensation and remuneration of directors" in Note 23-g to the consolidated financial statements.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's paid-in capital. The legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

When a special reserve is appropriated, the special reserve is only appropriated from the sum of net profit for current period and items other than net profit that are included directly in the unappropriated earnings for current period is used if the prior unappropriated earnings is not sufficient.

The appropriations of earnings for 2023 and 2022 that had been resolved by the shareholders in their meeting on June 12, 2024 and June 9, 2023, were as follows:

	Appropriation of Earnings	Deficit Compensation
	For the Year Ended December 31, 2023	For the Year Ended December 31, 2022

Special reserve	<u>\$ 54,513</u>	<u>\$ 82,146</u>

d. Special reserves

On the first-time adoption of IFRS Accounting Standards, the Company transferred \$10,968 thousand and \$250,296 thousand of unrealized revaluation increment and cumulative translation exchange differences on translating the financial statements of foreign operations to retained earnings, respectively. Because the increase in the retained earnings resulting from the first-time adoption of IFRS Accounting Standards could not fulfill the appropriation for the special reserves generated from the revaluation and translation differences, Phihong appropriated the amount of \$230,859 thousand, the increase in retained earnings from all IFRS Accounting Standards adjustments to the special reserve.

26. GOVERNMENT GRANTS

PHC received government grants for acquiring energy-saving equipment. Such amounts have been deducted from the carrying amounts of the relevant assets while recognized in profit or loss within the useful lives of the assets by reducing the depreciation expenses. For the three months ended September 30, 2024 and 2023, and for the nine months ended September 30, 2024 and 2023, the depreciation expenses have been decreased by \$538 thousand, \$506 thousand, \$1,951 thousand and \$1,550 thousand, respectively.

27. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximizing the return to stakeholders through the optimization of the debt and equity balance. The Group's overall strategy remains unchanged.

The capital structure of the Group consists of net debt (borrowings offset by cash and cash equivalents) and equity attributable to owners of the Company (comprising issued capital, reserves, retained earnings and other equity).

The Group is not subject to any externally imposed capital requirements.

- 2) The balances included financial liabilities at amortized cost, which comprise short-term borrowings, contract liabilities, trade payables, trade payables to related parties, other payables, bonds payable, long-term borrowings, lease liabilities, guarantee deposits received and deferred revenue.

c. Financial risk management objectives and policies

The Group's major financial instruments included cash and cash equivalents, financial assets measured at amortized cost, equity instruments, notes receivable, trade receivables, trade receivables from related parties, other receivables, other receivables from related parties, refundable deposits/guarantee deposits received, short-term borrowings, short bills payable, contract liabilities, trade payables, trade payables to related parties, other payables, long-term borrowings, bonds payable and lease liabilities. The Group's corporate treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk.

1) Market risk

The Group's operating activities expose it primarily to the financial risks of changes in foreign currency exchange rates (see a) below) and interest rates (see b) below).

a) Foreign currency risk

Several subsidiaries of the Company had foreign currency sales and purchases, which exposed the Group to foreign currency risk. The Group believed that its foreign currency assets and liabilities were not significantly exposed to foreign currency risk. Thus, after assessing its balance of foreign currency assets and liabilities, it did not hedge the risk and did not adopt hedge accounting.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) and of the derivatives exposed to foreign currency risk at the end of the reporting period are set out in Note 32 to the consolidated financial statements.

Sensitivity analysis

The Group was mainly exposed to the USD, RMB and VND.

The following table details the Group's sensitivity to a 1% increase and decrease in New Taiwan dollars (the functional currency) against the relevant foreign currencies. The sensitivity analysis is for a 1% change in foreign currency rates and included only outstanding foreign currency denominated monetary items at the end of the reporting period. A positive number below indicates a decrease (increase) in pre-tax profit (loss) when New Taiwan dollars strengthen by 1% against the relevant currency. For a 1% weakening of New Taiwan dollars against the relevant currency, there would be an equal and opposite impact on pre-tax profit (loss) and other equity, and the balances below would be negative.

	2024	2023
USD	\$ 23,290	\$ 11,915
RMB	(728)	(2,131)

b) Interest rate risk

The Group was exposed to fair value interest rate risk and cash flow interest rate risk from long-term, short-term borrowings, bonds payable and lease liabilities at both fixed and floating interest rates.

The carrying amounts of the Group's financial liabilities with exposure to interest rates at the end of the reporting period were as follows:

	September 30, 2024	December 31, 2023	September 30, 2023

2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. At the end of the reporting period, the Group's maximum exposure to credit risk could be equal to the carrying amount of the respective recognized financial assets as stated in the consolidated balance sheets.

According to the Group's policy, the Group only transacts with creditworthy counterparties. In the case that overdue receivables may result to the risks on financial losses, the Group usually obtains the collateral to mitigate the risks. The Group continuously monitors the risk exposure and the credit ratings of the counterparties. In addition, to control the credit risk exposure, the Group transacts with many creditworthy customers and assigns personnel to annually review and approve their credit limits.

Trade receivables generate from a large number of customers, who vary from the industries and geographical areas. The Group continuously evaluate the customers' financial performances to ensure the collection of the trade receivables. In addition, if necessary, the Group purchases the insurance to secure the trade receivables.

3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings and ensures compliance with loan covenants.

The Group relies on bank borrowings as a significant source of liquidity. As of September 30, 2024 and 2023, the Group had available unutilized bank loan facilities set out in (b) below.

a) Liquidity and interest rate risk tables for non-derivative financial liabilities

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table had been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The table included both interest and principal cash flows. Specifically, bank loans with a repayment on demand clause were included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities were based on the agreed repayment dates.
